#### **ACTIVE**

1. National Institute of Dental and Craniofacial Research. *Multi-Level Interventions to Reduce Caries Disparities in Primary Care Settings.* PI: Nelson, S.; Co-I: D.A. Freedman (7.5%). Total Direct Costs: \$3,241,326. September 1, 2015 – August 31, 2020.  
*This study will test innovative theory-driven multi-level interventions at the parent/caregiver, provider (physician), practice (pediatric) levels to increase dental attendance and reduce untreated caries among 3 to 6 year old Medicaid-enrolled children attending well-child visits in the pediatrician's offices.*  
Role: Provide expertise related to implementation research design and community-engagement methods
2. National Institute of Diabetes and Digestive and Kidney Diseases. *Evaluating a Food Hub in an Urban Context.* Multiple MPIs: D.A. Freedman (36%), A. Sehgal. Total Direct Costs: \$1,482,018.00. July 1, 2015 – June 30, 2018.  
*The goal of this quasi-experimental rapid-response study to evaluate the effect of a new food hub opening in a low-income, urban community that is currently defined as a food desert. The study will assess the impact of the food hub on changes in diet among people living near the food hub as well as on the broader food retail environment.*
3. U.S. Department of Agriculture. *Ladder for Growth: A National Network to Build Capacity and Test Innovative Strategies for Healthy Food Incentives* (Subcontract from Wholesome Wave). PI: D.A. Freedman (10%). Total Direct Costs: \$56,784. May 1, 2015-April 30, 2018.  
*The major goal of this project is to evaluate healthy food incentive program implementation across over 400 farmers' markets located in diverse settings in the United States using FM Tracks software, evaluation technology developed by Dr. Freedman.*
4. Centers for Disease Control and Prevention. *Case Western Reserve University Prevention Research Center for Healthy Neighborhoods.* PI/PD: E. Borawski; PI Core Research: D.A. Freedman (25%). Total Direct Costs: \$2,271,292. October 1, 2014-September 30, 2019.  
*The major goals of this Center are to provide infrastructure to support applied public health research aimed at reducing chronic disease inequities and develop and test interventions to improve access to nutritious foods in low-resource settings in Cleveland, Ohio. Dr. Freedman is the PI of the Core Research (FreshLink) of the PRCHN.*

Role: Principal Investigator of Core Research of Center accounting for 50% of total budget, Associate Director of Center leading dissemination efforts

5. U.S. Department of Agriculture. *Building Capacity for Obesity Prevention* (Subcontract from Ohio State University/SNAP-Ed) PI: D.A. Freedman (10%). Total Direct Costs (\$304,851). October 1, 2014-September 30, 2016.  
*The major goal of this mixed methods study is to develop, test, and disseminate diagnostic tools and tailored technical assistance to assist SNAP-Ed practitioners select nutrition-related policy, systems, and environmental level interventions for obesity prevention among low-income populations.*
6. National Heart, Lung, and Blood Institute. *Physical Activity and Nutrition Policy Intervention in Afterschool Programs*. PI: M. Beets (University of South Carolina); Co-I: D.A. Freedman (10%). Total Direct Costs: \$2,476,322. August 21, 2012-May 31, 2016.  
*The aim is to evaluate the impact of a staff-level intervention on children's physical activity levels, a site-level intervention (snack modification program) on the quality of snacks served in afterschool programs, and identify organizational, staff, and setting characteristics that influence the process of implementing these strategies to promote physical activity and quality of snacks offered in afterschool programs.*  
Role: Provide expertise related to healthy eating and food access interventions

## COMPLETED

7. Wholesome Wave. *Developing and Testing Farmers' Market Evaluation Technology*. PI: D.A. Freedman (5%). Total Direct Costs (\$13,249). January 1, 2015-October 31, 2015.  
*The goal was to address farmers' market incentive program implementation barriers through the development of a state-of-the-art iOS-based application (App) system for gathering and organizing farmers' market incentive program information, and evaluating trends and impact using common metrics.*
8. Ohio Department of Health. *Ohio Nutrition and Obesity Policy Research and Evaluation Network*. PI: D.A. Freedman (5%). Total Direct Costs (\$46,593). October 1, 2014-September 30, 2015.  
*The aim of this study was to build a network of researchers and practitioners from across Ohio to establish a collaborative research program aimed at assisting front-line public health practitioners to successfully implement nutrition-related policy, systems, and environmental interventions.*
9. Centers for Disease Control and Prevention. *Case Western Reserve University Prevention Research Center for Healthy Neighborhoods*. PI/PD: E. Borawski; Co-I: D.A. Freedman (10%). Total Direct Costs: \$480,200. October 1, 2013-September 30, 2014.  
*Dr. Freedman joined this five year grant in 2013. The grant supported the establishment of the CWRU Prevention Research Center for Healthy Neighborhoods (PRCHN), one of the newest PRCs in the national network supported by the CDC. The major goals of this PRCHN are to foster rigorous community-based prevention research between faculty, students, fellows and community partners, to build community capacity for conducting and engaging in prevention and health promotion research and to publish local health data. Core research project focuses on increasing healthy food options in urban, food scarce neighborhoods.*  
Role: Provide expertise related to food environment intervention research
10. Centers for Disease Control and Prevention/National Cancer Institute. *South Carolina Cancer Prevention and Control Research Network*. MPI: J. Hébert, D. Friedman (University of South Carolina); Core Project PI: D.A. Freedman (10%). Total Direct Costs: \$1,103,059. November 2009-October 2014.  
*This research provided training and technical assistance to Federally Qualified Community Health Centers in South Carolina to ensure the provision of quality, comprehensive preventive and primary care services for cancer and unites efforts with a national network focused on cancer prevention and control. Dr. Freedman was the lead investigator on the pilot project involving farmers' markets as a method for effecting changes in diet.*  
Role: Principal Investigator of Core Research of the grant
11. Kresge Foundation. *Creating Healthy Environments through Community Engagement*. MPI: D.A. Freedman (30%); R. Pitner. Total Direct Costs: \$520,000. July 1, 2010-June 15, 2013.  
*The goal of this quasi-experimental community-based participatory research study was to test the effectiveness of a community engagement strategy aimed at creating healthy and safe neighborhood environments for children and families living in public housing complexes.*
12. U.S. Department of Agriculture. *How can communities and households protect children from very low food security?* PI: S. Jones (University of South Carolina); Co-I: D.A. Freedman (5%). Total Direct Costs: \$369,501. June 1, 2011-December 31, 2013.  
*The purpose was to understand what household and community conditions influence childhood hunger, with the focus on conditions that are amendable to change. We collected and analyzed data from families living in rural and urban counties in South Carolina*  
Role: Provide expertise related to food insecurity and qualitative research methods
13. National Cancer Institute. Administrative Supplement: *Developing Measures of the Built Nutrition Environment Study*. PI: A. Liese (University of South Carolina); Co-I: D.A. Freedman (5%). Total Direct Costs: \$119,469. June 1, 2009-May 31, 2011.  
*This supplement funded a telephone survey of residents of the study area ascertaining information on dietary intake and perceptions of the built food environment.*  
Role: Provide expertise related to food environment interventions and qualitative research methods

14. Monroe Carell Jr. Children's Hospital. *Veggie Project*. PI: D.A. Freedman (10%). Total Direct Costs: \$10,375. June 1, 2009-September 15, 2009.  
*The aim of this research was to examine the processes necessary to integrate farmers' markets and youth capacity building into the infrastructure of Boys and Girls Clubs.*
15. James Stephen Turner Foundation. *Food Security Summit 2008*. PI: D.A. Freedman (5%). Total Direct Costs: \$7,500. January 1, 2008-December 31, 2008.  
*The aim of this funding was to support a city-wide conference using a community-based participatory approach that empowered local residents to disseminate data related to food (in)access and food (in)security. Proceedings were used to inform a Nashville-wide action plan that was used by the Mayor's office to enact change.*
16. Tennessee Department of Agriculture. *Food Security Summit 2008*. PI: D.A. Freedman (5%). Total Direct Costs: \$10,000. December 1, 2007-June 30, 2008.  
*The aim of this funding was to support a city-wide conference using a community-based participatory approach that empowered local residents to disseminate data related to food (in)access and food (in)security. Proceedings were used to inform a Nashville-wide action plan that was used by the Mayor's office to enact change.*
17. Frist Foundation. *Food Security Summit 2008*. PI: D.A. Freedman (5%). Total Direct Costs: \$4,200. September 1, 2007-June 30, 2008.  
*The aim of this funding was to support a city-wide conference using a community-based participatory approach that empowered local residents to disseminate data related to food (in)access and food (in)security. Proceedings were used to inform a Nashville-wide action plan that was used by the Mayor's office to enact change.*
18. LifeWorks Foundation. *Creating Food Systems Change*. PI: D.A. Freedman (20%). Total Direct Costs: \$170,591. August 1, 2006-December 31, 2008.  
*The aim of this funding was to develop infrastructure to establish a local, multi-sector coalition aimed at improving access to healthy foods among low-income consumers. The coalition founded in 2006 with Dr. Freedman serving as the Founding Director and is currently an active non-profit (Community Food Advocates) located in Nashville, TN.*

### **Pending Extramural Research Support**

1. U.S. Department of Agriculture. *Building Capacity for Obesity Prevention* (Subcontract from Ohio State University/SNAP-Ed) PI: D.A. Freedman (10%). October 1, 2016-September 30, 2017.
2. National Science Foundation. *Urban Visualization, Integration and Exploration within the Nexus of Food, Energy, and Water Systems*. PI: A. Abramson (Engineering); Co-PI: D. A. Freedman (5%). September 1, 2016-August 31, 2020  
Role: Lead data gathering and integration related to food-specific outcomes included in analytic models.
3. National Science Foundation. *A New Paradigm for Training and Research Targeting the Food-Energy-Water Nexus for Marginalized Peoples Locally and Abroad* (training grant). PI: D. Lacks (Engineering); Co-PI: D.A. Freedman. (5%) August 1, 2016-July 30, 2021.  
Role: Lead one of the core interdisciplinary training programs focused on health outcomes at the nexus of food, energy, and water.
4. National Institutes of Health, Office of the Director. *Ohio Precision Medicine Collaborative*. MPI: Tang (Cleveland Clinic), Embi (OSU), Haines (CWRU), Heubi (U Cincinnati), Jackson (OSU), Wright (CWRU); Co-I: D. A. Freedman (5%). July 1, 2016-June 30, 2021.  
Role: Provide leadership to recruitment and retention methods for enrolling cohort of >100,000 participants into study cohort.
5. National Institutes of Health. *Collaboration for Health Equity & Eliminating Disparities (HEED)*. MPI: K. Stange (Family Medicine), M. Webb-Hooper (Cancer Center); Co-I: D. A. Freedman. (5%). July 1, 2016 – June 30, 2020.  
Role: Provide social network analysis expertise to evaluate process outcomes of the community-engaged research partnership.
6. National Institutes of Health. *Cultural Adaption of Self-Management Strategies*. PI: Voss (Nursing); Co-I: D.A. Freedman. (5%) July 1, 2016-June 30, 2021.  
Role: Provide expertise related to community-based participatory research and implementation science.

*FM Tracks*™ (CWRU 2014-2597): A novel iOS-based App and website designed to facilitate implementation of healthy food incentive programs. The App helps farmers' market managers gather and manage healthy food incentive information electronically. A feasibility study focused on rollout of the App and website to 200+ sites was conducted in 2015. Entered into an Option and Evaluation License Agreement with Wholesome Wave in June 2015, and currently in the process of licensing the technology to Wholesome Wave for wide-scale dissemination throughout the US. This technology is currently being used in the USDA-funded *Ladder for Growth: A National Network to Build Capacity and Test Innovative Strategies for Healthy Food Incentives* grant, serves as the foundation for evaluating the core research of the Prevention Research Center for Healthy Neighborhoods, and is used to conduct process evaluation related to one of the aims of Dr. Freedman's R01 titled *Evaluating a Food Hub in an Urban Context*.
